

973 Ionized Air Blower

- Fast discharge times: (<2.5 seconds at 30cm)
- Built-in automatic emitter point cleaners
- External terminal block
- Variable fan speeds (1.5 to 4.0m/s)
- ±5 volt offset voltage balance
- Compact size: (18 cm high x 18 cm wide x 5 cm deep with stand)

Item	Description
973-RW0-000	Ionized Air Blower, with Stand, NoAdapter
973-RW0-010	Ionized Air Blower, with Stand andAdapter

975 Ionized Air Blower

- Fast discharge times: (<1 second at 30 cm)
- Built-in automatic emitter point cleaners
- External terminal block
- ±5 volt offset voltage balance
- powder coated steel housing and multi-mount stand
- Variable fan speeds (3.5 to 6.0m/s)

Item	Description
975-RW0-000	Ionized Air Blower, with Stand, NoAdapter
975-RW0-010	Ionized Air Blower, with Stand andAdapter
975-RW1-00H	Ionized Air Blower, with Stand, No Adapter, UL Listed
975-RW1-11H	Ionized Air Blower, No Stand, with Adapter, UL Listed

963E Benchtop Ionizer

- Steady-state DC benchtop ionizer with auto-balance
- Less than 2 seconds discharge time with ±15 volts offset voltage (balance)
- Meets the ANSI/ESD S20.20 required limits for ionization tested per ANSI/ESD STM3.1 and ESD TR53
- Electrostatically shielded emitter points eliminates field-induced charging
- 2-speed fan

Item	Description
963E	Benchtop Air Ionizer with North American Power Adapter

9100 Benchtop Air Ionizer

- Eliminates the build-up of static charges on insulative materials in a work area
- Steady-state DC ionization
- Variable fan speeds
- Illuminated power switch
- Easy-access cover for fan and emitter maintenance
- White powder-coated metal housing

Item	Description
9100-CP	Benchtop Air Ionizer with China Plug, 220VAC
9100-US	Benchtop Air Ionizer with US Plug, 220VAC
9100-UK	Benchtop Air Ionizer with UK Plug, 220VAC
9100-JP	Benchtop Air Ionizer with Japan Plug, 110VAC

960 Mini Air Ionizer

- In-tool ionizer with steady-state DC emitters provides fast discharge with low airflow
- Compact size (4.5" H x 3.3" W x 2.0" D with bracket)
- Less than 4 seconds discharge time with ±20 volts offset voltage (balance)
- Up to 4 ionizers can be connected in series and powered off of one power adapter

Item	Description
960	Mini Air Ionizer without Power Adapter
960 KIT	Mini Air Ionizer with Power Adapter

966 Air Ionizer

Item	Description
966	Air Ionizer

- Point-of-use ionizer which meets the required limits of ANSI/ESD S20.20
- Corona discharge with ±15 volts offset voltage (balance); tested per ANSI/ESD STM3.1 and ESD TR53

992X Ionization Bar

- Ion generation method: Corona discharge
- Ion balance: ±30V or less *1
- Effective elimination distance: 50mm – 1500mm *2
- Power voltage rating: DC24V±5% *3
- Power consumption: 150mA
- Emitter needle: Tungsten
- Service temperature: 5-40°C
- Environment humidity: 15-85% (no condensation)
- Several sizes available

980 Ionized Air Gun

Item	Description
980	Ionized Air Gun, 120VAC
980E	Ionized Air Gun, 220VAC

- Point-of-use compressed air ionizer
- Fast < 1 second discharge times with ±30 volt offset voltage balance tested per ANSI/ESD STM 3.1 and ESD TR53
- Modular design with 7 foot ESD protective hose with trigger switch
- Use filtered air or nitrogen – no adjustment required
- Console mounting hardware included
